

The Recycling Cart is compatible with all semi-automated and fully-automated collection systems. Each cart is equipped with heavy-duty roll-out wheels and an easy-grip handle, making all sizes easy to transport. The lid flips up to allow for quick emptying and can be locked down for enhanced security. They can also be customized with openings and custom stamping.

Flexible

- Endless combinations with size and color of cart, openings, labels, custom stamping on cart and also on the slot
- Lock options: Hasp or Lockjaw® lock

Openings (can be custom stamped at top and bottom):

Hard drive label and paper slot on E-S240L cart creates hard drive cart
